**Learning Objectives:**

1. Assess and select treatment plans for managing diabetic patients and differentiate between those patients requiring subspecialty consultation and/or management
2. Differentiate between neurosensory testing with the Pressure Specified Sensory Device™ (PSSD) and EMG
3. Assess patient need for treatment and intervene at early onset in order to affect patient outcome
4. Select appropriate testing method and apply to clinical situation

**Statement of Accreditation:**

**STATEMENT OF ACCREDITATION:** The Mercy Memorial Hospital System is accredited by the Michigan State Medical Society to provide continuing medical education for physicians.

**AMA/PRA DESIGNATION STATEMENT:** Mercy Memorial Hospital System designates this educational activity for a maximum of 1.5 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity.
